

Predict to Plan to Consensus (P2P2C)

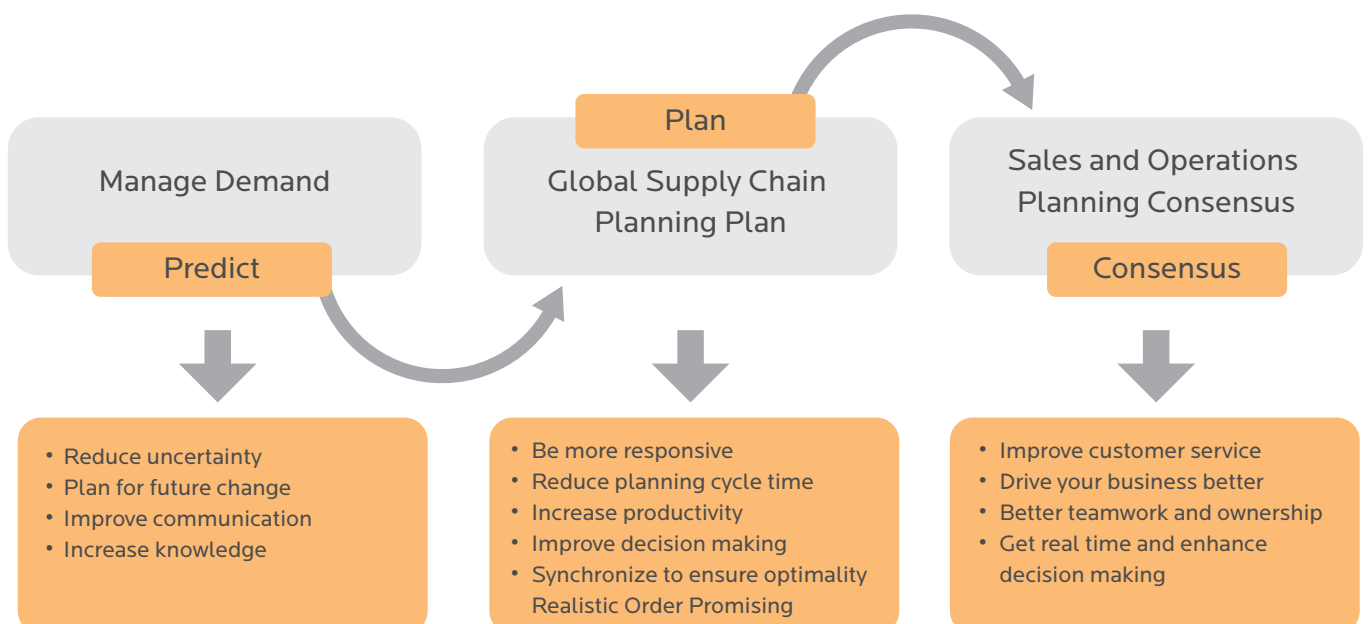

Supply Chain Management Solution

“Predicts demand, plans your supply, and helps attain a consensus sales and operations plan.”

Seamless supply chain management requires functional units to be in tune with one another. Accurate demand and supply planning can ensure that each function works in collaboration and in tandem; thus ensuring an effective and robust supply chain. Birlasoft, an Oracle Platinum Partner, presents Predict to Plan to Consensus (P2P2C) – a solution that ensures an effective supply chain.

P2P2C helps you to predict demand, plan your supply, and helps attain a consensus sales and operations plan. The solution enables you to optimize the benefits of Oracle Demantra Demand Management, Advanced Supply Chain Planning and Demantra Real time Sales & Operations planning.

Faster Implementation, Effective Maintenance

Get More from P2P2C

Implementation

- Accelerated Implementation
- Pre-formulated process for demand & supply planning
- Modular structure of the solution – Can be tailored to individual project
- Independent of source transactional system (Oracle EBS, JD Edwards, SAP etc.)
- Structured questionnaire, guidelines & framework to reduce the implementation time frame
- Custom components to improve the productivity
- Following industry best practices in managing the supply chain

Post Implementation

- Guidelines & Framework for Performance Management
- Approach to patch the applications on regular basis
- KPI Measurement & Reporting - Forecast Accuracy, Inventory-returns

Solution Highlights

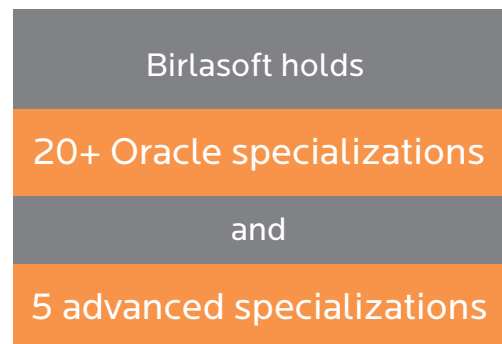

P2P2C consists of these six building blocks –

- Industry best Practices and Planner guidelines - (Demand & Supply Planning, S&OP)
- Templates to manage the Data Collection for Demand & Supply Planning - (Independent of Application)
- Questionnaire to understand requirement & drive - Technology Enabled Re-engineering - Roadmap from unconstrained to constrained plan
- Custom Solutions for - Planning accuracy - Automate Manual Maintenance - Collaboration with Supply Chain Partners
- Guidelines & Framework for - Data Collection - Scheduling of Plan Run
- Initial Server Sizing & Performance Management

Birlasoft Oracle Practice provides Oracle and process-based expertise to Manufacturing, Automotive and Energy industries.

More than 2,000 Oracle professionals deliver a powerful combination of industry experience and Oracle knowledge in the following areas:
