Integrated Solution for Contract Logistics
Integrated Solution for Contract Logistics

Today’s modern dynamic supply chains pose unique challenges to logistics service providers. This includes creating an agile and coherent logistics systems covering various components of SCM, faster decision making enabled by meaningful insights, having real time visibility on assets, cost and revenue and strategically managing supply chain assets to create superior value to customers & consumers.

With multiple systems to manage these activities, logistics service providers often become less agile and face issues due to lack of single source of truth.

Birlasoft’s Contract Logistics solution enables logistics service providers to become more agile, smart and quick. Our cloud-based solution is fully integrated and comprehensive, covering complete transportation and warehouse logistics activities.

Transportation - Order management, shipment planning and execution, track and trace, rate management, fleet management, customer billing

Warehousing Logistics - Space occupancy, owned / rented warehouse utilization, inbound / outbound and storage

Value Proposition

Integrated
Seamlessly connected multiple best breed solutions for LSPs covering logistics and WMS functions

Highly Visible
IoT bases real time tracking of vehicles, shipments, and other SCM assets using oracle IoT cloud

Intelligent
Optimized route and capacity planning, automatic driver assessment and fleet utilization, rule based and system driven receiving/put away and picking warehouse activities

Smart
Drive Mobile App for POD and other tracking activities, mobile app for performing warehouse operations

Comprehensive
Cover activities from transportation, w/h till customer billing functions

Meaningful
Advanced analytics using Fusion Transportation Intelligence(FTI) and Oracle WMS BI

Solution Components

Birlasoft’s Contract Logistics solutions is based on best of breed Enterprise solutions & in house developed Bolt- On Solution on Oracle PaaS

- Oracle Transportation Management Cloud
- Oracle IoT Cloud
- Oracle FTI (Fusion Transport Intelligence)
- Oracle WMS Cloud
- Oracle WMS BI
