

Robotic Process Automation

Process Automation Solutions from Birlasoft

Upto 47% Organizational Tasks can be Automated

Upto 50% Reduction in Salary Costs

Upto 10% Reduction in Enterprise Operating Expenses

Upto 40% Reduction in Processing Time

Upto 26% Increase in Revenue

Benefits

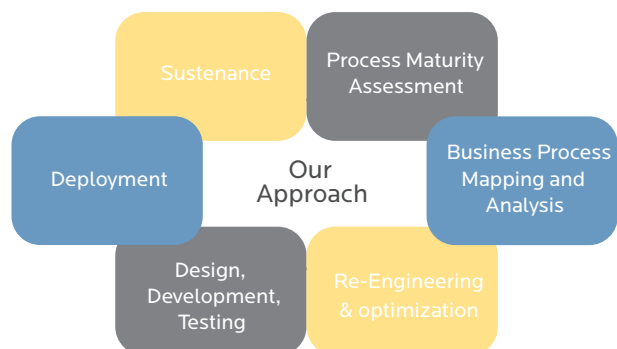

-  Scalability
-  Cost Reduction
-  Governance - Compliance, Control, Auditability
-  Reusable and configurable
-  Business Outcomes based services
-  ROI in 3 to 9 months

Enterprise Challenges

- Market dynamics driving business needs
- IT playing catch-up with business needs
- Complexity of IT Landscape, disparate technologies and applications
- Optimizing the resource mix
- Strategic initiatives not getting enough time
- Limitations of the current approaches like BPR, BPM and business process outsourcing/offshoring that provide limited gains

Harnessing the RPA Technology

Robotic Process Automation (RPA) is one such emerging, non-invasive option which is turning out to be a disruptor to derive multifold gains from the existing processes and resources. RPA is an ideal choice for companies to unburden their human resources from repetitive and mundane activities and focus more on enriching complex activities and strategic initiatives.

SMART Operators

At Birlasoft, we guide our clients, right from assessment for best fit approaches to benefit realization by designing, developing and deploying SMART Operators using the right RPA tools. Our Operators essentially are:

High Return Zones

- Rule-based Decisions and Validations
- Transactions prone to human errors
- Routine and High Volume Processes
- Data Aggregation and Analysis
- Transactions requiring multiple IT systems
- Processes involving repetitive tasks

Applicable for all Process Groups

Procure to Pay	Quote to Cash	Record to Report	Hire to Retire
Warranty Management	Compliance and Reporting	Analytics and Reporting	Customer Service
