50+ Active Accounts 

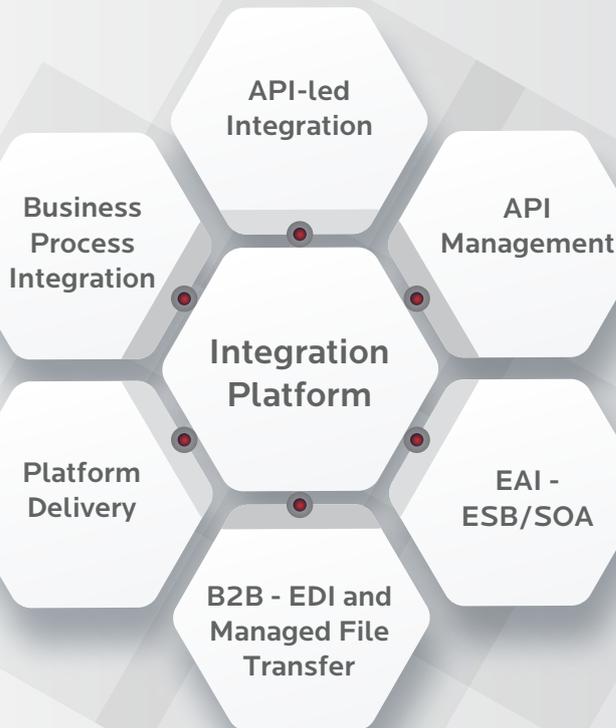

20+ In-House Accelerators 

### Integration Area

### Service Engagement

#### Advisory led Middleware Modernization

#### Consulting

- Platform Assessment and Selection
- Integration Road Map Definition
- Interface Cataloging
- Integration C4E and CoE Setup
- Integration / API Factory Setup

#### Delivery Management

- API / Interface Development
- DevOps
- Agile Integration Development
- Waterfall

#### Managed Support Services

- SLA Based Middleware Support (L1, L2, L3 and L4)
- Platform Upgrades and Maintenance

## Integration Partners

## Case Study

### Customer

Life sciences organization

### Problem Statement

- Traditional point-to-point connections created a bottleneck for digital transformation journey
- Multiple complex and legacy integration landscapes hindered agility and increased operational cost

### Value Created

#### Reduced Technical Debt:

- **50% reduction** by Platform Consolidation (From 6 to 3 Middleware Platforms)
- **40% reduction** by optimizing Integration Architecture (From 1800+ to 1000+ Interfaces)

#### Operations cost reduction:

- **30% cost saving**
- **7% Y-o-Y reduction** with value added services
- **2x accelerated integration development**
- Rolled out a single view of all customers/products data via API-led connectivity
- Created a highly scalable integration platform

## Case Study

### Customer

High-tech manufacturing customer

### Problem Statement

- Growing technical debt
- High dependency on vendors
- Failure to meet stringent transition timelines

### Value Created

- Implemented lean transition methodology with partnership-led approach
- Introduced seamless consolidated governance through vendor consolidation

#### Reduced Technical Debt:

- **25% reduction by Platform Consolidation** (From 18 to 14 Middleware Platforms)
- **30% reduction by optimizing Integration Architecture** (From 200+ to 140+ Interfaces)
- Operations cost reduction - **44% savings**
- **1.5x accelerated integration development**
- Created a highly scalable integration platform to cater to future business needs

## Challenge **The Norm**

Birlasoft combines the power of domain, enterprise, and digital technologies to reimagine business processes for customers and their ecosystem. Its consultative and design thinking approach makes societies more productive by helping customers run businesses. As part of the multibillion-dollar diversified CK Birla Group, Birlasoft with its 12,500+ professionals, is committed to continuing the Group's 161 year heritage of building sustainable communities.
