

# bCloud<sup>+</sup>

A simplified approach to running  
JD Edwards on cloud

There has been a revolution in the way businesses view their IT expenditures, looks out for ways to convert their CAPEX into OPEX, and reduce spending on maintenance of systems. Enterprise customers are embracing digital transformation and cloud adoption of their applications with ERP at the core of their ever-expanding business needs.

Birlasoft is the world's largest and leading Oracle JD Edwards solutions provider. We have been successfully executing Oracle JDE projects globally for over 25 years. With the Oracle Cloud Solutions Provider (CSP) Expertise from Oracle, we are recognized as a partner with the skills and demonstrated experience to build, deploy, run, and manage both Oracle and non-Oracle workloads in the Oracle Cloud

## Overview

Birlasoft's bCloud+ program migrates your on-prem JD Edwards instance into a JDE-as-a-service model on Oracle Cloud Infrastructure (OCI). With a simplified flat fee structure, we take care of the migration, with minimal downtime, and take full responsibility for the on-going maintenance of the JDE instance. With a global presence, a proven track record of JDE support excellence, and a 24x7 help desk, our bCloud+ program streamlines your JDE support and maintenance requirements.

The bCloud+ architecture has been specially engineered to ensure a smooth adoption of JDE on OCI with minimal business disruption, and considers real production needs, like 24x7 support, security, network configuration, high-availability (HA), and disaster recovery (DR).

## Reimagine your business with fully managed JDE on OCI

Right from migration to continuous operations

### Expert 24x7x365 Support

Always-on SLA bound support from a global service desk powered by a cutting edge ITSM solution

### Simplified Pricing

No more budget overruns for JDE infra requirements with a simplified and predictable flat fee pricing based on concurrent JDE users

### Reduce IT budget

Channel your IT spending towards strategic initiatives and leave your JD Edwards maintenance with our JDE experts

### Stay Current

Quarterly Oracle Critical Patch updates and Yearly Tools Release upgrades are included

### Data Security & Durability

Includes OCI DB-as-a-Service (DBaaS) and optional upgrade to Oracle Autonomous Database

### One Contact

Birlasoft with its Oracle CSP status can provide complete integrated services for everything JDE & OCI related

# Why bCloud+ is the right choice for JD Edwards application journey on Oracle Cloud Infrastructure?

## Expertise & Experience

With Birlasoft bCloud+ offering, you are supported by the world's largest and leading Oracle JD Edwards solutions provider. We have been successfully executing Oracle JDE projects globally for over 25 years. With the Oracle Cloud Solutions Provider Expertise from Oracle, we are recognized as a partner with the skills and demonstrated experience to build, deploy, run, and manage Oracle and non-Oracle workloads in the Oracle Cloud.

---

## Oracle Cloud Infrastructure

Oracle Cloud Infrastructure was designed specifically to support workloads like JD Edwards. Oracle Cloud Infrastructure delivers higher-performance compute, storage, networking, and managed database instances that result in a better experience for your users at a lower cost of operation. Oracle Cloud Infrastructure also provides SOC1/SOC2 compliant data centers in various regions around the globe.

---

## Choice and Control

Multiple reference architecture models governed by concurrent users, and the ability to run even non-Oracle/JDE workloads, the bCloud+ program gives you the flexibility to move your entire JDE landscape to the cloud. We take full ownership of the cloud deployment letting your IT team focus on strategic initiatives, but at the same time ensuring that you have full control over any JDE customization, configuration, and security.

---

## Stay Current with your JDE System

An all-inclusive pricing model keeps your OCI infrastructure current, provides value added services like yearly tools upgrades, advanced monitoring, and system assessments by a certified CNC specialist.

---

## SLA Backed Services

OCI is the only public cloud offering that provides end-to-end SLAs covering performance, availability, and manageability of services. The bCloud+ program augments this further by offering industry leading SLAs around CNC managed services and JDE availability, enabling you to use a reliable and proactively monitored JDE system.
