Oracle Fusion Middleware

Extend Your Business Capabilities with Oracle Fusion Middleware

Enhance and Extend capabilities of JD Edwards and E-Business Suite with Oracle Fusion Middleware

Today, more than ever, organizations need to respond to change. Improving service and reducing costs while under pressure from customers, partners, and competitors is no easy task. Companies are expected to produce accurate, real-time information while facilitating transparency, collaboration, and optimization of the value chain.

All this demands constant business agility.

Birlasoft's Oracle Fusion Middleware (OFM) solutions enable enterprises with Oracle E-Business Suite (EBS) and JD Edwards (JDE) to enhance the agility of their business processes and extend them further than ever before.

Birlasoft offers a unique combination of application integration and business process management expertise. Our in-depth knowledge of Oracle E-Business Suite, JD Edwards and the Oracle Fusion Middleware Suite helps organizations build scalable, reliable, secure, and agile infrastructure surrounding Oracle EBS and JDE, by adopting SOA Suite and WebCenter technologies.

Solution

Our solutions are driven by key Oracle Fusion Middleware-based products and extend your Oracle EBS and JDE application. They will help you reduce your integration costs, while increasing IT asset reuse, and deliver a high ROI.

Service Offerings | Fusion Middleware Service offerings

- Middleware Strategy Consulting

- Automating Content Intensive Business Processes with Oracle WebCenter Imaging

- Process Automation and Application Integration for Oracle ERP upgrades using Oracle BPM and SOA

What Birlasoft Offers

We provide Assessment and Technology Workshops to educate organizations on industry best practices for adopting SOA, Business Process Automation, Collaboration and Content Management. Our expert advice on the extensibility options provided by Oracle E-Business Suite and JD Edwards streamlines the automation of processes outside the boundaries of your Oracle ERP and the organization.

Birlasoft will help you analyze your current systems, processes and infrastructure, so that areas of optimization can be addressed. With Birlasoft, you can identify how to eliminate paper and redundant workflows, while automating key activities and tasks.

We can suggest a detailed roadmap, leveraging Fusion Middleware tools to improve business processes. Our high level architecture footprint for the adoption and implementation of Fusion Middleware has benefits for many business areas.

Birlasoft Methodology

We execute all our engagements using our Birlasoft Global Delivery Model.

We jump start SOA, BPM and Content Management projects with a vast repository of artifacts, **developed by our Fusion Middleware Centre of Excellence.**
