

# TruModern Workplace

Shaping the Future of Work

Empower your enterprise with an "Innovative, dynamic, and actionable" self-service "Modern Workplace" solution

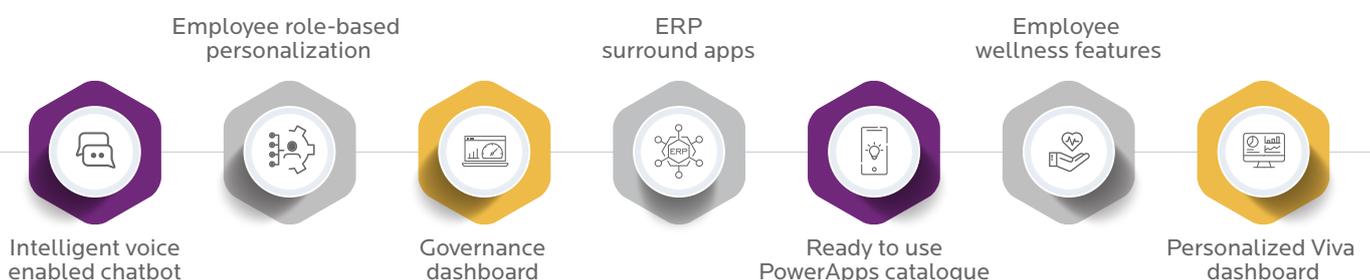

In today's AI-driven world, companies are using AI-powered tools to enhance workforce productivity. A key aspect of this approach is the adoption of intelligent modern intranets, which streamline processes and provide a unified platform for employees to access necessary resources. This flavor of innovation not only streamlines processes but also offers a unified platform where employees can access what they need without the hassle of juggling multiple systems or sending countless emails. It's worth noting that Birlasoft has an exceptional offering in the form of "TruModern Workplace," which embodies these intelligent modern intranet principles, taking workplace efficiency to new heights.

Silos within organizations can hinder productivity, but strategies can be implemented to encourage teamwork and break down barriers. Task fragmentation due to using multiple platforms can also impact productivity and job satisfaction, but modernizing offices and reimagining the employee experience can address these issues effectively.

## Birlasoft's Modern Workplace Offering at Glance

With a multi-scenario approach that considers both present and future needs, Birlasoft's Modern Workplace Methodology transforms organizations into collaborative workplaces. In addition to assisting organizations in establishing solid collaborative governance, it also gives them the ability to adjust to rapidly evolving industry standards, assuring their readiness for the future. The "Modern Workplace" solution by Birlasoft is more than a technology upgrade; it is a cultural shift, an embodiment of innovation, and a testament to progress. Our Modern Workplace solution embodies innovation, dynamism, and actionability, creating a self-service environment that elevates the employee experience at the enterprise level. We bring the consumerization aspect of user experience into the corporate world, allowing your workforce to thrive in an environment that mirrors the agility and simplicity of the outside world. Birlasoft's Modern Workplace Methodology is a multi-scenario approach that transforms organizations into collaborative workplaces by considering present and future needs. It helps establish collaborative governance and enables organizations to adapt to evolving industry standards. This solution represents a cultural shift, embodying innovation and progress, and creates a self-service environment that enhances the employee experience at the enterprise level by bringing consumerization into the corporate world.

### Salient Features of Birlasoft's TruModern Workplace:

# Our Edge

The following advantages for initiatives to transform employee experience are provided by Birlasoft's Modern Workplace:

Personalized dynamic and actionable insights

The Right Information at the right Time

Embracing automation

Elevate employee satisfaction

Integrated solutions

Enhancing workplace efficiency

Fostering transparency

Adapt to new trends

Prioritize employee-centric thinking

## Success Story

Our client, a global technology leader renowned for designing, manufacturing, and supporting premium trucks, faced a series of significant challenges, including maintaining consistent branding across a diverse product range, addressing collaboration silos that hinder efficient communication, streamlining a complex sitemap structure for better navigation and search functionality and enhancing governance and compliance through automation.

Birlasoft was engaged by the business to modernize its employee experience by deploying intelligent systems to boost agility and efficiency. We leveraged our Birlasoft's Modern Workplace solution by executing Agile-SCRUM methodology, supported by a robust Governance Framework to manage site and data proliferation. Our strategy also utilized accelerators such as the Birlasoft Assessment and Validation tool, a Custom Migration toolkit powered by PowerShell scripts and Common utilities like SPFx Extensions and Components to drive successful transformation.

### The result

Improved employee experience and cross-departmental collaboration.

Data-driven intelligence provided a competitive edge to boost operational efficiency.

## Why Birlasoft?

At Birlasoft, we have helped organizations of all scales from multiple industries modernize their workspaces to tackle the challenges of modern work. Our teams bring deep technology expertise and have helped organizations achieve repeatable success by building innovative solutions on top of the Microsoft 365 ecosystem. Because employee experience transformation is sensitive to the needs of multiple stakeholders across global organizations, our teams spend adequate time understanding your employees' pain points and help you achieve an outcome-driven employee experience transformation.
