Keep Current™

Remain Perpetually Current on EnterpriseOne 9.2

Offload your effort and time to frequently upgrade JDE applications and stay current with changes made available by Oracle

Oracle has extended its support for JD Edwards EnterpriseOne 9.2 until October 2028. JDE customers will be able to adopt new capabilities with premier support. Product innovation upgrades will now be released on a frequent basis as opposed to waiting for years for a new release.

What this means to JD Edwards Customers

Certainty	Readiness
Oracle will continue to invest in JD Edwards. A clear roadmap will allow customers to develop a long-term JD Edwards strategy.	Customers will need to move to E1 9.2 to be able to take advantage of the continuous delivery model.

Agility	Mindset
Innovation will be delivered faster and continuously. Customers will need a plan to absorb these rapid releases or risk falling behind the innovation curve.	Customers will need a paradigm shift in their approach to leverage E1 9.2 as a powerful platform of innovation.

How Birlasoft keeps EnterpriseOne 9.2 current

Apply / Analyze. Pick-up every fix, ESU, ASU released from Oracle and apply it in the Birlasoft's E1 9.2 environment as they become available
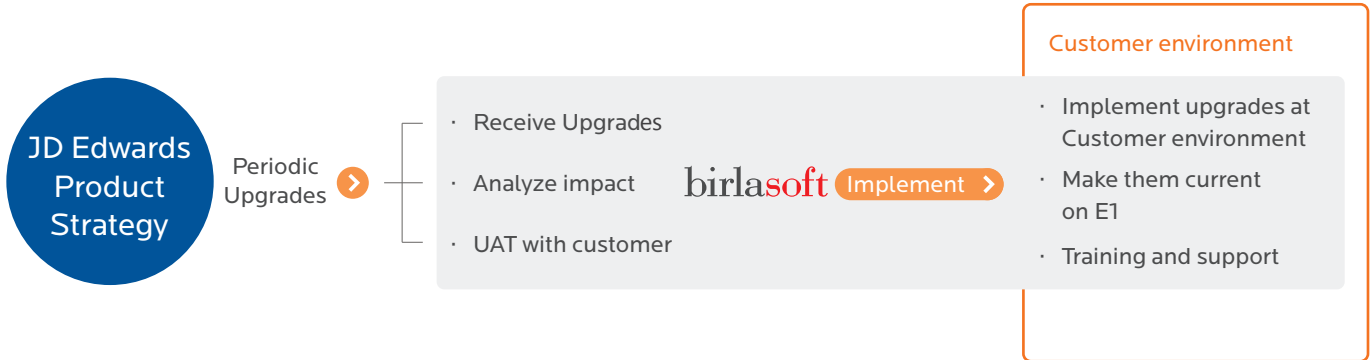

Feedback. Send feedback to Oracle JD Edwards product strategy, if any issues or problems are encountered and get it fixed as necessary

Educate. Educate customers about all the changes, fixes, innovation on a quarterly basis

Stay Current. Apply all changes to customer's UAT and then production environment in a 3-month window

How this is made possible

The business environment of JDE user is presumed to become unstable on getting numerous frequent changes from Oracle. Birlasoft alleviates this risk and ensures stability by downloading, applying, analyzing and testing all the changes, and incorporating into the customer's environment. Birlasoft also retrofits all custom objects and ensures that ESU application does not impact custom changes negatively.
