AI-POWERED PLM REGULATORY COMPLIANCE

Turn Regulatory Change into Confident Product Decisions

Birlasoft AI-Powered PLM Regulatory Compliance with Certivo CORA brings regulatory intelligence, supplier evidence, human assurance, and enterprise integration together in one connected flow across the product digital thread.

WHEN REGULATIONS CHANGE

Can you prove compliance across every product, supplier, and market?

One Regulatory Change. Thousands of Connected Decisions.

When a product regulation changes, manufacturers must quickly understand which products, parts, suppliers, and markets are affected - and whether the available evidence is complete, current, and audit-ready.

- Which products, parts, and materials are affected?
- Which suppliers need to provide updated evidence?
- Which releases or markets could be at risk?
- Can teams prove compliance without searching across disconnected systems?

Why Fragmented Evidence Becomes Business Risk

Evidence often sits across PLM, ERP, quality systems, supplier portals, emails, and spreadsheets. Missing declarations, expired certificates, and conflicting versions can surface too late.

RELEASE HOLDS | SHIPMENT DELAYS | AUDIT EXPOSURE

One Connected Compliance Offering Across The Digital Thread

Move from disconnected tools and evidence handoffs to one governed flow from regulatory change to audit-ready proof.

- **SENSE & ASSESS** Track regulatory change and map impact across products, parts, suppliers, and markets.
- **COLLECT & VALIDATE** Automate multilingual supplier outreach, parse evidence, and route judgment-based exceptions for human review.
- **CONNECT & GOVERN** Link trusted evidence with PLM, ERP, QMS, LIMS, RIMS, and supplier systems while maintaining product-level traceability.
- **MONITOR & REFRESH** Track expiring certificates and regulatory updates, then trigger re-collection before evidence becomes stale.
- **PROVE & SCALE** Produce audit-ready proof across 130+ frameworks and scale through implementation, support, and managed services.

ONE CONNECTED SOLUTION. ONE COMPLIANCE FLOW. ONE ACCOUNTABLE DELIVERY MODEL.

Birlasoft AI-Powered PLM Regulatory Compliance with Certivo CORA

Collect. Validate. Monitor. Prove.

Birlasoft embeds Certivo CORA across one continuous workflow that turns regulatory change and supplier evidence into connected, audit-ready proof.

1

SENSE & ASSESS

Track regulatory change and identify product, part, supplier, and market impact.

2

COLLECT & VALIDATE

Automate supplier outreach, parse evidence, and apply human review where judgment matters.

3

CONNECT & GOVERN

Link validated evidence to enterprise systems with clear ownership, rationale, and lineage.

4

MONITOR & REFRESH

Watch regulatory updates and expiring certificates, then trigger re-collection.

5

PROVE & IMPROVE

Create audit-ready packages on demand and continuously strengthen the operating model.

Faster Proof. Less Manual Effort.

AUDIT-READY PACKS IN 4 HOURS

Accelerate evidence preparation from weeks to hours.

UP TO 90% LESS FOLLOW-UP

Reduce repetitive manual supplier outreach.

130+ REGULATORY FRAMEWORKS

Apply one evidence engine across compliance categories.

COMPLETE AUDIT TRAIL

Trace supplier contact, evidence, validation, and decisions.

TURN EVERY CHANGE INTO AUDIT-READY PROOF

See risk earlier. Close gaps faster.
