Cyber Maturity Assessment & Roadmap - Final Report

June 2026

This report is intended solely for the information and internal use of Birlasoft and is not intended to be and should not be used by any other person or entity. No other person or entity is entitled to rely, in any manner, or for any purpose, on this report.

Birlasoft Limited Overall Maturity Score

Birlasoft's current cybersecurity maturity is 4.07, placing it at a Managed level with well-established and consistently applied security practices.

The organization aims to further strengthen its capabilities through continuous improvement across the Govern, Identify, Protect, Detect, Respond, and Recover domains.

These improvements will help Birlasoft enhance its overall cybersecurity posture and maintain strong resilience against the evolving threat landscape.
