Logistics managers want one end-to-end solution that is reliable, easy to use, and fully integrated with Oracle WMS.

WMS All-in-One™ provides all the components needed to drive your business processes on the warehouse floor. Birlasoft provides consulting, deployment and implementation using best-of-breed technologies from Oracle and our partners. WMS All-in-One simplifies your life and reduces risk by having Birlasoft as your single, experienced partner taking care of the complete solution.

For example, consider these typical scenarios and questions from logistics managers.

- How can we get up and running quickly on mobile warehouse technology?
- Which handheld scanners are easy to use, trouble-free and can handle a tough environment?
- We need high quality labels for drums, cases, pallets – how can we print labels automatically using Oracle WMS?
- How can we research understanding all the technologies is time consuming – can you help me sift through all the information and figure out what is best for my environment?
- How can we interface and integrate Oracle WMS with our conveyors and automated systems?
