Kindly take the same on your record.

Thanking you.

Yours faithfully,

For Birlasoft Limited

Sneha Padve
Company Secretary & Compliance Officer

Encl.: As mentioned above.
Birlasoft AutoPack Achieves Oracle Validated Integration with JD Edwards EnterpriseOne Expertise for Delivering Proven, Repeatable Integration

AutoPack offers customers end-to-end automation of package management that forms the core function of software development lifecycle management

Pune, Noida (India) and Edison, NJ (USA) | Nov 10, 2021: Birlasoft Ltd [BSE: 532400, NSE: BSOFT], part of the USD 2.4 billion diversified CK Birla Group, a global enterprise digital and IT services and a member of Oracle PartnerNetwork (OPN), today announced that it has achieved Oracle Validated Integration with JD Edwards EnterpriseOne Expertise for its integration of AutoPack - a package automation tool that can eliminate redundancy in the entire package management cycle by automating underlying components and converting the redundant inputs into re-usable setups, therefore eliminating human errors and enhancing system administrators' productivity when dealing with daily package activities.

Expertise is a core tenet of OPN and allows Oracle partners to highlight their capabilities in a focused area. Ultimately, Expertise is designed to make it easy for customers to identify partners who can deliver quality solutions and minimize risk for their specific needs.

To achieve the Oracle Validated Integration with JD Edwards EnterpriseOne Expertise, partners like Birlasoft must meet a series of qualifiers, including demonstrating that the integration performs as documented. Learn more about Expertise, including viewing the complete Expertise Catalog, at www.oracle.com/partnernetwork/expertise

AutoPack is a package automation tool built entirely using the JD Edwards (JDE) toolset including the presentation layer comprising of interactive and batch JDE programs. The key features that make this product stand out are:

• Developed using standard JDE object development tools and thus virtually effortless to manage
• Leverages canned package functionality without an influx of modifications to native objects
• Straightforward installation via object imports mechanism of par files. Zero investment in external solutions
• Simple to secure using standard JDE security workbench

"The Oracle Validated Integration for AutoPack with JD Edwards EnterpriseOne strengthens Birlasoft’s position as an Oracle partner. Our robust solutions have been helping JD Edwards
customers reduce deployment risk, lower the total cost of ownership, and automate system administration tasks allowing administrators to focus on high priority tasks. Birlasoft is committed to delivering superior customer value with the continuous pursuit of innovation excellence, technology expertise, and customer-centric approach." said Roop Singh, Chief Business Officer, Birlasoft.

"Achieving Oracle Validated Integration with JD Edwards EnterpriseOne Expertise gives our customers the confidence that the integration of Birlasoft's AutoPack is functionally sound and performs as tested," said David Hicks, Vice President, Worldwide ISV Cloud Business Development, Oracle. "For solutions deployed on-premise, in the cloud, or both, Oracle Validated Integration applies a rigorous technical review process that helps to reduce deployment risk and improves the user experience of the partner's integrated offering."

About Oracle Validated Integration Expertise

Oracle Validated Integration Expertise, available through Oracle PartnerNetwork (OPN), gives customers confidence that the integration of a complementary partner software product with an on-premise Oracle Application has been validated and the products work together as designed. This can help customers reduce risk, improve system implementation cycles, and provide for smoother upgrades and simpler maintenance. Oracle Validated integration applies a rigorous technical process to review partner integrations and partners who successfully earn an Oracle Validated Integration Expertise are authorized to use the "Oracle Validated Integration" badge.

About Oracle Partner Network

Oracle Partner Network (OPN) is Oracle's partner program designed to enable partners to accelerate the transition to cloud and drive superior customer business outcomes. The OPN program allows partners to engage with Oracle through track(s) aligned to how they go to market: Cloud Build for partners that provide products or services built on or integrated with Oracle Cloud; Cloud Sell for partners that resell Oracle Cloud technology; Cloud Service for partners that implement, deploy, and manage Oracle Cloud Services; and License & Hardware for partners that build, service or sell Oracle software licenses or hardware products. Customers can expedite their business objectives with OPN partners who have achieved Expertise in a product family or cloud service. To learn more visit: http://www.oracle.com/partnernetwork
