CELEBRATING MANAGERIAL EXCELLENCE
The Great Manager Awards (GMA) 2019 celebrated and honoured individuals and companies demonstrating managerial excellence.

The Best Boss – we have all heard this phrase in our careers, but what is it that makes them better than the average supervisors? There may not be a single all-encompassing answer to this question, but there sure is a way to reward the managers who go beyond their brief and convert talent into performance. The fourth edition of Great Manager Awards (GMA) 2019 presented by People Business, was aimed at rewarding the sheer hard work, dedication and commitment by India's best managers and the companies who fostered managerial excellence.

With a nationwide hunt conducted by People Business, GMA identified companies with great managers, and individuals who outshine in their fields of expertise. Addressing the gathering, Mervyn Raphael, MD, People Business said, “The key findings from this year’s awards are – the ability to manage change, learnability and adaptability to adapt, and diversity.” People Business is a strategic HR consulting firm which provides services such as leadership assessment and development. They also provide services in employer brand management, organisational culture (in partnership with Hofstede Insights) and talent assessments.

This year, a new category was introduced - “T.A. Pai Young HR Leader” – as part of the Great Manager Awards in collaboration with T. A. Pai Management Institute to recognise and honour HR leaders under 45 years of age. ZingHR was the Tech Partner for GMA 2019 Awards. Prasad Rajapak, Founder & MD, ZingHR, addressed the audience on how technology is helping managers to be more effective and create business impact.

The evening also witnessed an insightful panel discussion.
